Detailed Action

1. Claims 1-4 are presented for examination. This office action is in response to the amendment filed on 6/5/06.
2. Applicants are reminded of the duty to disclose information under 37 CFR 1.56.
3. The status of the related U.S. applications or patents should be included as appropriate in the CROSS-REFERENCE TO RELATED APPLICATIONS section and in any other corresponding area in the specification, (e.g., U.S. Patent Application Serial No. ###/###,### filed Sept. 07, 1990, now abandoned;..., now U.S. Patent #,###,### issued Jan. 01, 1994; or This application is a continuation of Serial Number ###/###,###, filed on December 01, 1990, now abandoned; ...etc.), if any

Drawings

4. Applicant is requested to particularly point out the figure number(s) and reference number(s) in the submitted drawings that is specifically directed to the claimed invention to assist examiner to locate the appropriate items in the drawings. Also the drawings are still objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "retrieving means for retrieving a memory part corresponding to retrieval data from memory parts ", "first output control means for controlling output of an initial signal", "second output control means for controlling output of a retrieval result signal", "N first input means", "second input means

Art Unit: 2185

for inputting a reference signal", "obtaining means for obtaining a priority signal", "detecting means", "output means for detecting a predetermined memory part from the memory part", and "performing means" must be shown or the feature(s) canceled from the claim(s). Also a flow diagram for illustrating steps in claims 2-4 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

REASONS for ALLOWANCE

5. The following is an Examiner's statement of reasons for the indication of

allowable subject matter: claims 1-4 are allowable over the prior art of record because an update of a search previously made does not detect the combined claimed elements as set forth in the claims 1-4. Claims are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a retrieving device, method, or a software program that connected with N other retrieving devices to form a retrieving system, said retrieving device, retrieving device, method, or software program comprises retrieving means; first output control means; second output control means; N first input means; second input means; obtaining means; detecting means; output means; and performing means as described in the specification and together with combination of other claimed element as set forth in the claims. Therefore, claims 1-4 are allowable over the prior art of records.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons For Allowance."
